MILTON®

DRIVEWAY SIGNAL

The Signal... to Sales!
A MUST FOR

SERVICE STATIONS • MOTELS • DRIVE-IN BANKS, LAUNDRIES, RESTAURANTS, ETC.

DEPENDABLE PERFORMANCE ★

Alerts you **Every Time** with Single Loud Clear Tone that Signals **Sales at Your Door**.

COMPACT DESIGN ★

Modern, easy to mount... completely self contained unit, styled to fit the decor of any Station... makes installation easy—just plug cord into any 110 volt electric outlet.

LONGER SERVICE ★

Each **Milton® Driveway Signal** is manufactured from the finest materials, fabricated to close tolerances... **Expertly Assembled and Tested** to give you a signal that will perform longer under prolonged "Tuff" use.

OUR NO.

DESCRIPTION

805

Driveway Signal (6" Bell)

807

End Plug (for $\frac{3}{8}$ " I.D. Signal Hose)

810

Hose Splicer (for $\frac{3}{8}$ " I.D. Signal Hose)

817

Hose "Y" (for $\frac{3}{8}$ " I.D. Signal Hose)

819

Hose Anchor (for $\frac{3}{8}$ " I.D. Signal Hose)

838

Deluxe Driveway Signal Hose ($\frac{3}{8}$ " I.D.)

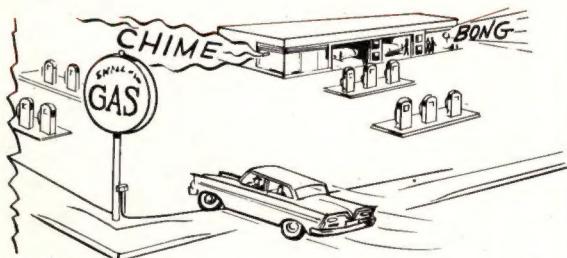

(50 ft. Length)

MANY USES ➤

SERVICE STATIONS, HOTELS, ESTATES, ROADSIDE STANDS, "BLIND ALLEY" EXITS, ETC.

"MAN THE PUMPS"

You'll never have that "sinking feeling" that comes from seeing a potential customer pulling away because you weren't aware that he was on the drive.

"SOMEONE IS COMING"

You know that someone is on your drive and headed your way. Business or Home... you're alerted to the presence of others before they've arrived at your door.

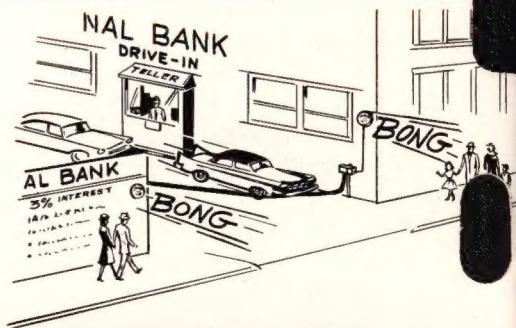

"MIND THE STORE"

NOW... you can "be in two places at one time" secure in the knowledge that there'll be no lost sales because you weren't aware that there was a customer at the stand.

"PREVENT ACCIDENTS"

This Safety Warning Bell installation alerts pedestrian traffic that a vehicle is about to exit from blind approach.

MILTON MANUFACTURING CO., Inc.

MILTON® REMOTE CONTROL SIGNAL

MILTON® REMOTE CONTROL AIR SWITCH

RUGGED, WEATHERPROOF CONSTRUCTION
For "Trouble-Free" INSIDE or OUTSIDE USE!

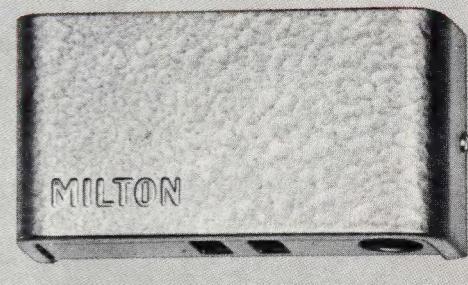

Plus "Proven in Use" integral design incorporated into Deluxe Terminal Box Construction to assure Maximum Sensitivity and Long Dependable Performance.

BARRIER TERMINAL STRIP for easy connections.
CONDUIT OPENINGS for versatility in installation.
(See other side of Page For Many Uses!)

OUR NO. DESCRIPTION

825 REMOTE CONTROL AIR SWITCH (110 Volt and/or LOW VOLTAGE).

MILTON

MILTON® REMOTE CONTROLLED SIGNAL BELL

The Signal THAT ALERTS YOU EVERY TIME
to Sales... WITH A SINGLE LOUD CLEAR TONE!

EASY TO INSTALL... Conduit type box construction for wall or conduit mounting... with "Proven in Use" BURN OUT PROOF COIL to assure Long Service.

OUR NO. DESCRIPTION

827 REMOTE CONTROLLED SIGNAL BELL (110 Volt)

MILTON® REMOTE CONTROLLED CHIME

A Must for SERVICE STATION OFFICE, MOTELS, and "DRIVE-INS" of all Kinds!

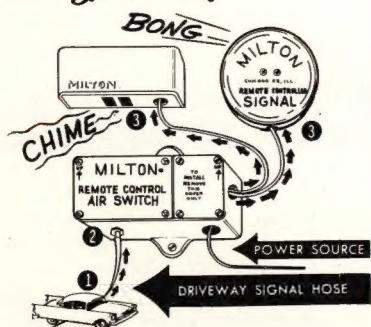

CLEAR MELODIOUS TONE that sounds the Signal of Good Taste with the reliability of MILTON Signal Bells... Key Slot openings in back make Hang-up or Screw-on installation a breeze... Conduit opening in bottom of box... Same "Proven in Use" BURN OUT PROOF COIL CONSTRUCTION as in No. 827 Signal Bell.

OUR NO. DESCRIPTION

830 REMOTE CONTROLLED CHIME (110 Volt)

HOW DOES A REMOTE CONTROL SYSTEM OPERATE?

SEE For Yourself

1. Vehicle passes over Driveway Signal Hose and displaces air in Hose.
2. Air from Hose closes electrical contacts in Remote Control Air Switch Box, and
3. Operates Bell and/or Chime.
4. Operates Bell and/or Chime.

NOTE: one MILTON No. 825 Remote Control Air Switch can operate up to 10 Bells and/or Chimes in various locations over a widely scattered area.

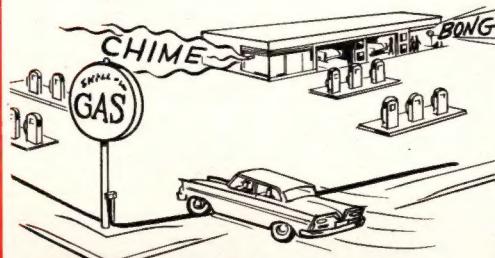

WHY USE A REMOTE CONTROL SYSTEM?

★ ECONOMY ★ VERSATILITY

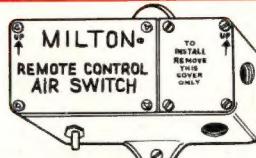

Many installations (because of size or Layout) require an exorbitant amount of Driveway Signal Hose in order to utilize a regular direct operating, Self-Contained, Driveway Signal.

Use of a Remote Control System in such installations, enables strategic placement of Hose, reducing the quantity required, and resulting in SAVINGS up to 50% OR MORE of Signal Hose Investment and costly Hose Replacement.

ILLUSTRATED BELOW IS AN EXAMPLE OF ONE SUCH TYPE OF INSTALLATION.

WHAT IS A REMOTE CONTROL AIR SWITCH?

The MILTON No. 825

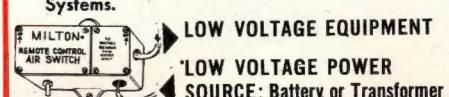

REMOTE CONTROL AIR SWITCH is an AIR OPERATED, ELECTRICAL CONTROL, in a DELUXE, WEATHERPROOF JUNCTION BOX, which makes a wide variety of Signal Installations possible.

PLUS FEATURES of the MILTON No. 825 REMOTE CONTROL AIR SWITCH

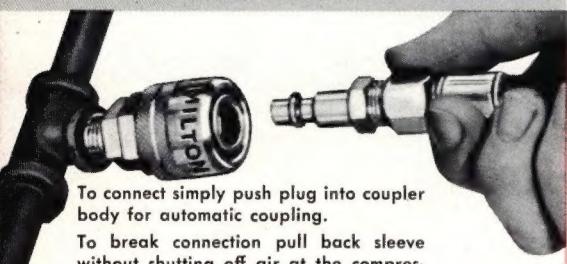

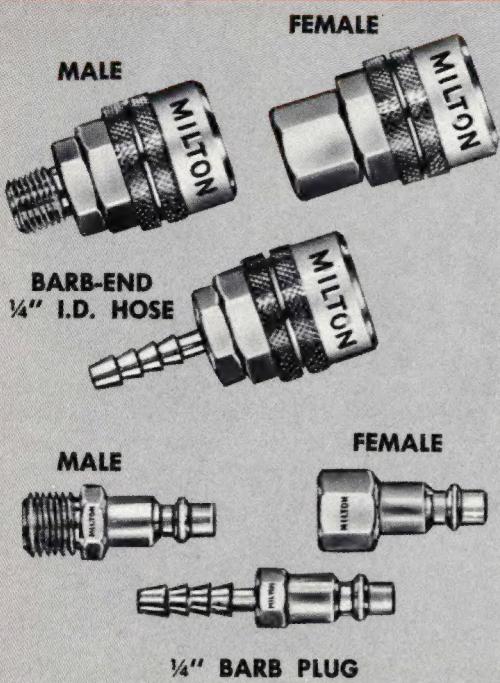

* Can be used to activate relays to operate all kinds of Electrical Devices, at various distant locations.

* Can be used as Control on Low Voltage Systems.

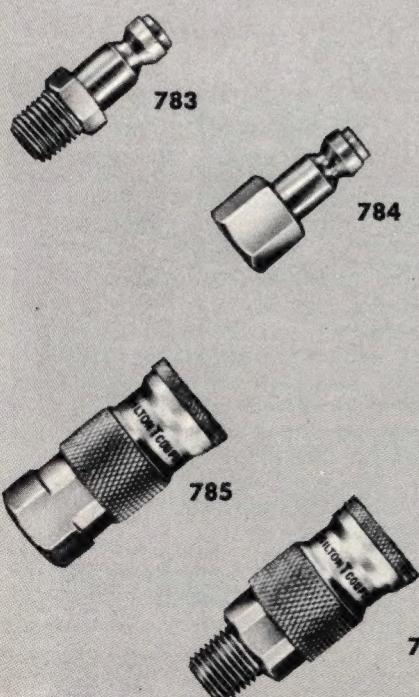

MILTON®

To connect simply push plug into coupler body for automatic coupling.

To break connection pull back sleeve without shutting off air at the compressor.

FOR FAST PLUG-IN APPLICATIONS:

- ★ **A HEAVY DUTY** Automatic coupler designed for applications where frequent coupling and uncoupling is necessary.
- ★ **MACHINED FROM SOLID BRASS** with all internal parts corrosion resistant.
